National Seamless Floors has developed a specialised coating system, available in a multitude of colours and consisting of a strong, durable base coat, colour chips and hard wearing top coat which permanently bonds providing a durable, hygienic, non-slip surface.

Suitable for a wide range of applications from Shopping Centres and Schools to the stringent health and safety requirements of hospitals, our high quality end product is free from seams, cracks and crevices.

An affordable, easy to clean and low maintenance product, perfect for floors, wall surfaces, bench-tops, timber, stairs & more.
